The urgency to create equity in schools has never been greater, especially since legislators are considering the re-authorization of No Child Left Behind as a means to eliminating the achievement gap. Studies continue to show that increased standards, testing, and accountability have simply maintained the status quo. In response, this book proposes alternative ways of addressing these educational inequities, taking an interdisciplinary approach to understanding the complex historical, social, and global issues that stand in the way of ensuring that all students have access to literacy - issues that policy makers and educators can no longer ignore. Literacy as a Civil Right assembles an impressive group of essays that broaden the conversation taking place about school reform, unmasking an ideology that maintains unequal relations of power in school and society. The ideas presented here will help readers re-imagine success in schools by understanding the possibilities that grow from a democratic vision of education. Together, this book provides an alternative framework to increased testing, offering a more humane vision of education that values agency, rigor, civic responsibility, and democracy.

The Texas Centennial of 1936, commemorated by statewide celebrations of independence from Mexico, proved to be a powerful catalyst for the formation of a distinctly Mexican American identity. Confronted by a media frenzy that vilified "Meskins" as the antithesis of Texan liberty, Mexican Americans created literary responses that critiqued these racialized representations while forging a new bilingual, bicultural community within the United States. The development of a modern Tejana identity, controversies surrounding bicultural nationalism, and other conflictual aspects of the transformation from mexicano to Mexican American are explored in this study. Capturing this fascinating aesthetic and political rebirth, *Border Renaissance* presents innovative readings of important novels by María Elena Zamora O'Shea, Américo Paredes, and Jovita González. In addition, the previously overlooked literary texts by members of the League of United Latin American Citizens (LULAC) are given their first detailed consideration in this compelling work of intellectual and literary history. Drawing on extensive archival research in the English and Spanish languages, John Morán González revisits the 1930s as a crucial decade for the vibrant Mexican American reclamation of Texas history. *Border Renaissance* pays tribute to this vital turning point in the Mexican American struggle for civil rights.

*Practicing Critical Oral History: Connecting School and Community* provides ways and words for educators to use critical oral history in their classroom and communities in order to put their students and the voices of people from marginalized communities at the center of their curriculum to enact change. Clearly and concisely written, this book offers a thought-provoking overview of how to use stories from those who have been underrepresented by dominant systems to identify a critical topic, engage with critical processes, and enact critical transformative-justice outcomes. Critical oral history both writes and rights history, so that participants—both interviewers and narrators—in critical oral history projects aim to contextualize stories and make the voices and perspectives of those who have been historically marginalized heard and listened to. Supplemented throughout with sample activities, lesson-plan outlines, tables, and illustrative figures, *Practicing Critical Oral History: Connecting School and Community* is an essential resource for all those interested in integrating the techniques of critical oral history into an educational setting.

PSALMS, Part 2, and LAMENTATIONS is Volume XV of *The Forms of the Old Testament Literature*, a series that aims to present a form-critical analysis of every book and each unit in the Hebrew Bible. Fundamentally exegetical, the FOTL volumes examine the structure, genre,

setting, and intention of the biblical literature in question. They also study the history behind the form-critical discussion of the material, attempt to bring consistency to the terminology for the genres and formulas of the biblical literature, and expose the exegetical procedures so as to enable students and pastors to engage in their own analysis and interpretation of the Old Testament texts. This volume completes Erhard Gerstenberger's widely praised discussion of the psalms literature begun in Volume XIV, and includes as well an admirable study of the book of Lamentations. Gerstenberger interprets the different kinds of songs and prayers that comprise the book of Psalms in light of their sociohistorical settings and provides a concise formal and structural analysis of each biblical text based on an illuminating comparison with other ancient Near Eastern prayers and hymns. Seeing the biblical writings in relation to the social, cultic, religious, and theological conceptions of Israel's neighboring peoples allows contemporary readers to better grasp the purpose and spiritual meaning of the psalms and Lamentations to the Jewish community that composed them.

American women have created an especially vigorous and innovative poetry, beginning in 1632 when Anne Bradstreet set aside her needle and picked up her "poet's pen." The topics of American women poets have been various, their images their own, and their modes of expression original. Emily Stipes Watts does not imply that the work of American men and that of American women are two different kinds of poetry, although they have been treated as such in the past. It is her aim, rather, to delineate and define the poetic tradition of women as crucial to the understanding of American poetry as a whole. By 1850, American women of all colors, religions, and social classes were writing and publishing poetry. Within the critical category of "female poetry," developed from 1800 to 1850, these women experimented boldly and prepared the way for the achievement of such women as Emily Dickinson in the second half of the nineteenth century. Indeed at times—for example from 1860 through 1910—it was women who were at the outer edge of prosodic experimentation and innovation in American poetry. Moving chronologically, Professor Watts broadly characterizes the state of American poetry for each period, citing the dominant male poets; she then focuses on women contemporaries, singling out and analyzing their best work. This volume not only brings to light several important women poets but also represents the discovery of a tradition of women writers. This is a unique and invaluable contribution to the history of American literature.

Psalms, with an Introduction to Cultic Poetry, is Volume XIV of The Forms of the Old Testament Literature, a series that aims to present a form-critical analysis of every book and each unit in the Hebrew Bible. Fundamentally exegetical, the FOTL volumes examine the structure, genre, setting, and intention of the biblical literature in question. They also study the history behind the form-critical discussion of the material, attempt to bring consistency to the terminology for the genres and formulas of the biblical literature, and expose the exegetical process so as to enable students and pastors to engage in their own analysis and interpretation of the Old Testament texts. Erhard Gerstenberger begins this volume with an examination of the nature of cultic poetry, its role in ancient Near Eastern religion, and more specifically its role in the religion of Israel. He goes on to survey the genres of cultic poetry, including lament, complaint, and thanksgiving. He then focuses on the book of Psalms as an example of cultic poetry, first analyzing the book as a whole and then working through Psalms 1-60 unit by unit, discussing structure, genre, setting, and intention. The work is enhanced by extensive bibliographies and a glossary of genres and formulas that offers clear, thorough definitions with examples.
