In the second edition of the book, Child Protective Services Whistleblower, Carlos Morales, exposes the dangerous tactics and overt corruption that he witnessed as a CPS investigator. Through keen insight, analysis, war stories, and interviews with attorneys & judges, Carlos Morales speaks truth to power in this shocking book. Unlike anything ever published, he breaks down exactly what families should do to protect themselves from this monolithic agency that has destroyed the lives of children & parents. Parents across the country have already used his legal recommendations and saved not only thousands of dollars on lawyer fees, but also protected the future of their family. It is imperative that people understand Child Protective Services in order to save their families, and this book accomplishes that in a gripping and thought provoking manner

This book is a true story about how powerful the Government is when they enter your Life , through many different names , CPS " Child Protective Services " every State has a different name . I was told by a Social Worker, as he took my baby girl "Trina " at 6 months old from my breast "Your in the Big Leagues now ! " There is a 90% failure rate ." I had 15 minutes in shock to pack a Diaper bag for Trina , we had just filled her nursery with a case of Huggies and new toys from Costco , A well known Market in the USA. This problem is universal, Babies are a Commodity . They are worth money . I quote my Lawyer " your baby is desirable, she is white , healthy , and a beautiful girl, She is very Adoptable "

This account of six families whose children were wrongly seized by child protection services vividly illustrates the constitutional balancing act where medicine, family interests, and child safety can clash. • Illustrates how the mantra "best interests of the child" masks errors, assumptions, and stereotypes that hide the real harm child protection policies are doing to children and families • Reveals how families are wrongly separated when overworked and underskilled caseworkers jump to conclusions of guilt, ignoring evidence of innocence • Focuses on the child protection system from the moment of intervention—starting with the child abuse hotline call that targets a specific child as a victim and his or her parents as suspects • Highlights the many decision points, attitudes, policies, and practices that operate to make even innocent parents vulnerable to having their children taken from them • Explains why basic due process principles ordered by federal and state courts would go a long way to help families, but cautions that just results depend on effective family defense counsel

"He promised to kill me when he got out. I believed him. If I wanted justice, I had to fight both him and the courts...maybe kill him first. If I didn't do something, I was going to die." This is not a manufactured dialogue from a thriller but the words of attorney Sharon Muse. They came after she survived an attempted kidnapping, rape, and murder at the hands of Larry Morrison, a former client. On April 7, 2006, Muse miraculously escaped from the sociopathic Morrison, only to find that the threat to her life was just beginning. Ineptitude in the justice system threatened to release Morrison and allow him the opportunity to finish the job, which he adamantly pledged to do. Muse would have to fight at every step to ensure her safety. Muse would act as her own advocate, investigator, legal counsel, and bodyguard in the years following the event. Kidnapped by a Client covers the brutal kidnapping, two trials, two appeals, procedural errors galore, one Supreme Court reversal, and even Muse's intricate plan to murder Morrison before he could get to her. Muse would not ultimately execute that plan, and she would emerge victorious in the legal battle thanks to her faith and her own determination and legal acumen. But her safety is not ensured: Morrison is up for parole in 2026. Muse regularly monitors his status. Muse recounts her stranger-than-fiction story in Kidnapped by a Client. Muse analyzes the failures of the legal system, the mistakes she made, the steps she took to protect herself, and how she has coped with trauma. Readers will find not only a compelling narrative, but also insight into how to protect oneself and ensure one's own safety and well-being.

Recounts a famous kidnapping that took place in New Orleans in 1870, in which a seventeen-month-old white child was taken by two African-American women, and the resulting public hysteria that led to racial tensions, political divisions, and false accusations and arrests.

Discusses a famous 1912 real-life drama, in which a young boy, believed to be kidnapped, was returned to his wealthy parents by the courts, with the case only solved in 2004 when DNA testing proved that he was not the kidnapped child.

48 Hours took investigative researcher Brenda Scott seriously! Every year, it is estimated that over one million people are falsely accused of child abuse in the U.S. The author reveals how the most innocent of answers can be twisted to suggest that parents are child abusers. Shocking, true stories.

A step by step guide to defending yourself against false accusations from Child Protective Services beginning from the first contact to family court. Detailed descriptions of real-life scenarios and a breakdown analysis of each case, what was done, what we learned and how to defend successfully. Included are several issues with the CPS system and how improvements could be made.

Every year thousands of children are removed from their homes by social workers. While many of the removals are justified because the children are in danger, many are not justified. If a teacher, doctor or neighbor suspects you may have abused your child and reports you, the social worker will show up at your home or your child's school and take your child. You will go through untold misery, fear and expense to get your child back. In short, you will be guilty until proven innocent. This handbook will help you understand what you must do to get your child back.
